

Good welders made good money...learn how at EASTERN!

Welding Technology

- This program is for high school junior and seniors only in Eastern Montgomery County. It is offered in partnership with your high school and your school district provides transportation to EASTERN.
- You receive graduation credit from your high school for taking this program at EASTERN. IF you earn a 70% or better and complete all your career objective tasks you will also receive an EASTERN certificate.
- You will learn about the properties of different types of metals and how to join them using state-of-the-art welding equipment.
- This program gives you an introduction to the industrial engineering field.
- You will learn to use the same tools and equipment used by professionals in the field and follow industry standards.
- Quality instruction is EASTERN's hallmark. We guarantee what you learn with a Student Warranty!
- You can get college credit for your work at EASTERN at Penn College of Technology.

To be successful you need to

- be in good physical condition
- have good hand-eye coordination
- read and understand blue prints and technical manuals

After completing this program you can

- work in the industry
- pursue a college education
- ultimately own your own business

Job prospects

are excellent as employers report difficulty finding enough qualified people. Technology is creating more uses for welding in the workplace and expanding employment opportunities. Laser beam and electron beam welding, new fluxes and other new technologies and techniques are improving the results of welding and have boosted welding productivity making welding more competitive with other methods of joining materials.

Register for this program

- Get a registration card from your high school guidance office or from EASTERN.
